Proposal demands province ends strike

By Andrea Babbler

Scott Reimer, Assistant vice president of the Ontario Federation of Labour, has proposed a plan to end the strike by the Ontario Federation of Labour (OFL) teachers. The proposal demands that the province negotiate with the teachers and end the strike.

The proposal, released on Tuesday, November 13, demands that the province negotiate with the teachers and end the strike. It also demands that the province negotiate with the teachers and end the strike.

About 1,000 college teachers represented by the Ontario Federation of Labour (OFL) have been on strike since October 10. The teachers are demanding a 5.5 per cent pay raise and a 10 per cent increase in health benefits. The teachers are also demanding a 10 per cent increase in health benefits.

Picket line incident is isolated occurrence

Students won't lose academic year: Tibbits

By Brian Stephens

College students are not in danger of losing their academic year, according to Conestoga president John Tibbits. Tibbits said that the college will ensure that students who are affected by the strike will not lose their academic year.

There is no way to say whether the proposal will be accepted. The teachers are demanding a 5.5 per cent pay raise and a 10 per cent increase in health benefits. The teachers are also demanding a 10 per cent increase in health benefits.

According to Tibbits, the college is planning to expand the new administration building. The new administration building will be a three-story building. The new administration building will be a three-story building.

Many of the proposed changes to the college have been made by a committee. The committee has been made by a committee. The committee has been made by a committee.

Sunbeam recruits students

By John Preston

Cornelius's Sunbeam Residential Center is looking for talented students who desire a challenging and creative work environment.

The center located at 2044 Highway 94 in Boise for the severely handicapped children and young adults. It also provides a broad variety of services for the community.

Ben Wilson, manager of human resources at the center, said Sunbeam's current needs are for students who are able to do the most basic tasks in the kitchen, in the laundry, in the office or in the industry related divisions. Wilson said professionals would be given a supervised support position in relevant work environments.

"The main concern is that our employees understand the need for developing and meeting it," he said.

The center is also searching for students from the community to assist in the maintenance of several of their publications.

Wilson describes the center as being one of the best facilities in terms of education and care.

Marianne Lervick, manager of development and public relations at Sunbeam, explained in detail that the center offers assistance to the members of the center.

The mission is to provide the student knowledge, skills and experience of a staff in order to provide appropriate services to the students with developmental or physical handicaps in their families and the community. The center recognizes the value of its employees' individual skills and experience and promotes its most valuable assets.

Lervick explained that 15 years ago parents who gave birth to a child with a disability often felt a great deal of isolation and grief. Their parents were advised by their physician and clergy to let the child live in the institution and the child was not expected to live.

"What I believe is the foundation of Sunbeam Center is the quality of life that we are able to provide," said Lervick.

The daily policy of the center is to be as much as possible, but not being made comfortable, but by the facts and current support given the students by the staff.

Robert the staff at the center is dedicated. Lervick said experience has shown to what others can learn to be a high level of support for those with 15 years.

"You feel that you are providing support and that the students who can provide," said Lervick, who has been with the center for 15 years.

"I'm like taking care of your own child - you can take better care of the child than anyone else."

As a result of the support and work that the center is the core of the community. Wilson said the developmentally handicapped have been given the opportunity to learn and to be able to do the things that others are doing. Lervick said many students are now introduced to the center before they are 10 years of age.

The foundation that Lervick describes as a challenging but when the

children in family living the first 10 years the child has some an awareness in the community family environment with the child.

New facilities and clergy are all strong foundations and support facilities. Lervick said the center is making use of support systems available and that the child's quality of life can be improved.

Lervick explained that the center is making use of support systems available and that the child's quality of life can be improved.

Volunteers play a large role in these programs. Lervick said all volunteers go through several hours of a volunteer training program. They are given a lot of support and a lot of help.

The center is a volunteer center. In the past area would be to help people who are in the center and have to be in the center in the past.

Graphics student wins award

by Jane Phillips

A first-year graphics student received a \$250 award in a Christmas card design contest sponsored annually by a local television firm.

John Drenth was one of 100 students who mailed their Christmas greetings in competing a card which reflected the corporate identity of Hinton & Hall, former Playtex MacKay's Inc. He also had to include a wish or Christmas message that will be seen on the firm's channels.

Hinton & Hall was an excellent firm for Drenth as he had a lot of time to play with the "card" and the "message".

Hinton & Hall also provided a Christmas card design contest. Drenth and the judges awarded the winners of the contest a \$250 award.

Drenth's card contained a Christmas wish, the company name, a logo and a photograph of the judges. The card was a symmetrical design and was very creative.

"We (judges) chose the card because it was a masterpiece of art," said Hinton & Hall. "It was a card that you would remember."

Drenth was given a letter that says "We want to congratulate you on your excellent design. We hope this card will be a great one and a reminder to the firm."

"I'm so excited and I feel honored," said Drenth.
